

Machinist CNC Operator 1st & 2nd shift

We are currently seeking several dependable, enthusiastic and highly skilled CNC Operators to join our company.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- * Responsibilities include the operation of CNC machines, mostly Haas, Hurco and Okuma machines to produce quality, precision, cost-effective machined parts on a production basis with minimal supervision
- * Ability to perform setups and use probing
- * Manufacture quality parts within customer specifications
- * Perform his/her own first part and in-process quality checks and deburring
- * Other duties as assigned by the supervisor

SKILLS & QUALIFICATIONS:

- * The ideal candidate will have five years CNC experience
- * Limited knowledge welcome with the right attitude
- * Understand Geometric Dimensioning and Tolerancing (GD&T)
- * Ability to read blue prints
- * Experience with quality systems and processes
- * Knowledge of measurement equipment
- * Knowledge of using computers
- * Good communication skills
- * A self-starter who uses initiative and problem identification to find solutions.
- * Ability to lift up to 70 pounds.
